

REMARKS

This application claims the priority of PCT/GB2004/003945 filed on September 16, 2004 and GB 0321674.4 filed on September 16, 2003.

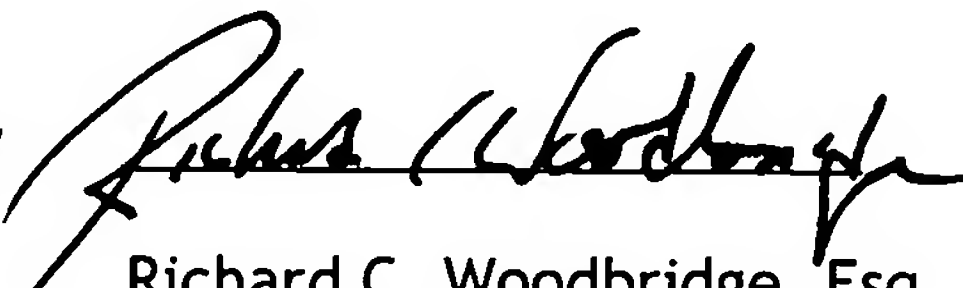

The U.S. Patent Office is hereby requested to examine the application as amended. The amendment to the specification was made to include the priority information and to conform to US patent format. The amendment to claim 9 was made to remove the multiple dependency. No new matter has been added by making this amendment.

We have enclosed, for your consideration, a copy of the Search Report issued by the UK Patent Office in a corresponding case mailed November 16, 2004 and an Information Disclosure Citation.

If the patent examiner has any questions or comments, he/she is respectfully requested to contact applicant's attorney at the telephone number indicated below so that additional amendments may be added as required.

Respectfully submitted,

Simon Jeremy East, et al.
